**WORLDWIDE
SUPPLIER OF
QUALITY GAS
PRODUCTS
AND SERVICES**

Scientific & Technical Gases Ltd

CALIBRATION GAS MIXTURES

Scientific & Technical Gases can supply custom made **gas and liquid mixtures** for all analytical, detection and process applications in a wide range of container sizes

CERTIFICATE OF COMPOSITION

All primary and certified mixtures are issued with a **certificate of composition**, showing a certified shelf life. We also supply, as standard, an extra laminated certificate tied to the valve or guard for our customer's records. Scientific & Technical Gases use a range of specialised internal cylinder treatments to give excellent mixture stability and optimum shelf life.

CYLINDERS

Cylinders can be supplied in a **complete range** of containers from small disposable cylinders and lecture bottles up to large 200 bar cylinders.

VALVE OUTLETS

We can supply gases with a range of valve outlets to meet your needs including **BS, DIN and CGA**.

TRANSPORTATION

We have extensive expertise in **shipping** all types of gases worldwide. Many of our team are trained on all types of dangerous goods transportation including road, sea and air.

QUALITY

All cylinders are supplied with a weather proof body label, thermographically produced to withstand arctic sub-zero temperatures, wet tropical conditions or intense heat as found in the desert regions.

All Scientific & Technical Gases products are traceable to the **National Physical Laboratory** or **UKAS** calibrated weights.

If analysis is required we calibrate against UKAS, NPL or NIST gas standards

Please contact us to discuss your exact requirements.
