Scientific & Technical Gases Ltd, founded in 1996, is now one of the largest independent suppliers of speciality gases and equipment in the UK.

Our product ranges includes:

HIGH PURITY GASES

- A range of high purity gases up to 99.9999% (grade 6) in high pressure refillable cylinders from Acetylene to Xenon.

SPECIALITY GAS MIXTURES

- Simple binary and complex gas mixtures in high pressure refillable cylinders

NON-REFILLABLE CYLINDERS

- A complete range of calibration gases in **non-refillable cylinders** including the **MICROGAS®** industrial gas product range

REGULATORS AND EQUIPMENT

- **Regulators** compatible for all makes of non-refillable cylinders
- High pressure cylinder **regulators and manifolds**
- In addition we can supply, **gas generators and ampoules**

SPECIALIST ENGINEERING

- We can advise and carry out high pressure and speciality gas installation works

CYLINDER RECYCLING

- We provide consultations with regard to cylinder recycling and disposal services

Scientific & Technical Gases Ltd have continued to invest in quality facilities, moving to new and larger premises in 2004.

We have "state of the art" filling bays and a well equipped analytical laboratory. Gases can be supplied to British BS, German DIN or USA CGA standards.

Analysis is to NPL, UKAS or NIST standards. We deliver worldwide to meet our customer needs.

For more information please contact us by phone, fax or e-mail. Alternatively visit our new website for detailed specifications and downloads.
